

## Testimonial

### Merck KGaA

Frankfurter Str. 250  
64293 Darmstadt  
Germany

“

Merck is a global pharmaceutical and chemical company with 177 companies in 56 countries. We decided to register **merck.jobs** for several reasons. As a general policy we try to register our name and trademark MERCK in a large number of countries. For the internet we decided to register merck.TLD wherever appropriate. But each company had their own system for recruiting people. Prior to the introduction of the **.jobs** domain we decided to establish a worldwide job portal offering jobs in the different companies.

Now, [www.merck.jobs](http://www.merck.jobs) is the perfect domain name to host the worldwide job portal of Merck.”
