- **Update** existing citation systems with information directly from the field
- **Print** citations directly from the handheld device

VeriSign enables and protects more than 30-billion global interactions every day and offers extensive wireless communication solutions so the world can communicate, conduct commerce, and access the latest content—anywhere, any time, across any network and with any device.

VeriSign® Enterprise Mobility Solutions for the Public Sector provide a number of applications, including mobile applications that automate the citation process for public safety and inspection departments.

+ The Issue

Today's public safety agencies continue to experience increases in moving violations and must find ways to be more productive and efficient at the point of citation. Officers need tools to expedite the time spent on a traffic stop, without compromising accuracy or officer safety.

+ The Solution

Our solutions provide the most technologically-advanced approach for seamlessly automating the citation process, while increasing officer efficiency and safety. VeriSign Enterprise Mobility Solutions for Public Sector give your officers easy-to-use and functional solutions, allowing them to move more easily, capture, collect, process, and transmit data to back-end database systems. In addition, full reporting can be handled via public or private radio networks.

Improve Productivity by significantly reducing the amount of time spent on each traffic stop, providing a single point of data collection and transmission for all citation information directly from the field. Minimize administrative costs by making the process more efficient and eliminating paperwork.

A **Flexible Mobile Solution Architecture** is important to maximize your existing and future technological and operational investments. VeriSign Enterprise Mobility Solutions for Public Sector interface with your existing back-end systems, enabling you to leverage your current technology investments.

+ Bundled Services

VeriSign provides bundled services, allowing for a turnkey solution, so you can focus on your business rather than on implementation, deployment, and training. VeriSign manages everything from initial requirements mapping and Enterprise Resource Planning

SOLUTION BRIEF

(ERP) integration, to software configuration and handheld deployment.

+ The VeriSign Advantage

Our VeriSign® Global Consulting Services organization enables companies to scope, define, and implement digital infrastructure solutions that help drive new revenue streams quickly and improve customer loyalty. With expertise in media and entertainment, wireless and mobility, supply chain, and security, our consulting services offer an unmatched combination of vision, technology, and intelligence—combined with an unparalleled ability to execute.

The experienced professionals of VeriSign Global Consulting Services leverage mobile technology expertise and industry experience to offer complete end-to-end solutions: strategy, business case analysis, hardware and software requirements, system integration, workforce training, and support. We help clients stay ahead of the market with high quality, comprehensive solutions to complex business and technology problems.
