

VeriSign® Enterprise Mobility Solutions for Mobile Asset Management

KEY BENEFITS

- **Automate** scheduling and dispatch for operational efficiency
- **Reduce** fuel costs with efficient routing
- **Manage** driver behavior for improved service execution and customer satisfaction
- **Provide** proactive maintenance schedules, eliminating overtime labor costs
- **Use** GPS functionality for location tracking and planning—resource pool functionality and efficiency
- **Mobile** asset diagnostics—preventative maintenance and warranty servicing
- **Automate** error-prone fuel tax reporting

VeriSign enables and protects more than 30-billion global interactions every day and offers extensive wireless communication solutions so the world can communicate, conduct commerce, and access the latest content—anywhere, any time, across any network and with any device.

Our suite of mobility solutions bring increased efficiency, productivity, and resource management optimization to your fleet and dispatch operations.

+ The Issue

Fleet resources are facing increasing competition, rising fuel costs, tightening of compliance standards, and the need for increased efficiencies to drive higher levels of customer satisfaction. As pressure mounts on modern transportation deliverables, companies are investigating new ways to provide on-time, safe, and accurate deliveries. They are also looking to increase customer satisfaction, productivity, and fleet management efficiencies, while insuring fuel tax compliance.

+ The Solution

VeriSign® Enterprise Mobility Solutions for Mobile Asset Management are a suite of mobile enterprise fleet management solutions that automate many of the tasks associated with dispatching and managing enterprise fleets. GPS tracking, vehicle diagnostics, remote asset management, and field resource management all work together to offer your company, employees, and customers improved performance, increasing quality of service and customer satisfaction.

Increase Customer Service and Satisfaction with improved visibility and accountability and services provided responsibly and on time. Tracking data insures service execution and customer satisfaction.

Control Operating Costs through management-defined notification and reporting solutions leveraging GPS tracking and driver certification. Gain internal and external benefits with improved fleet accident and loss ratios, insurance premium reduction, contained fuel cost, and labor cost efficiencies.

SOLUTION BRIEF

The new digital economy requires that enterprises electronically integrate their mobile assets, employees, and customers into their enterprise infrastructure, increasing the efficiency, agility, and competitiveness of their business. Our solutions interface with your existing enterprise back-end systems to provide customized reporting, automated dispatch, and proactive maintenance tasks that reduce operational costs.

+ The VeriSign Advantage

Our VeriSign® Global Consulting Services organization enables companies to scope, define, and implement digital infrastructure solutions that help drive new revenue streams quickly and improve customer loyalty. With expertise in media and entertainment, wireless and mobility, supply chain, and security, our consulting services offer an unmatched combination of vision, technology, and intelligence—combined with an unparalleled ability to execute.

The experienced professionals of VeriSign Global Consulting Services leverage mobile technology expertise and industry experience to offer complete end-to-end solutions: strategy, business case analysis, hardware and software requirements, system integration, workforce training, and support. We help clients stay ahead of the market with high quality, comprehensive solutions to complex business and technology problems.
